

**DECLARATION OF WATER SYSTEM SIZE**

I, Ray A. McBride, acknowledge that I am the owner of Golden Acres  
Mobile Home Park, Hampshire County, which contains a central  
(owner) (water system)  
water system. ID # 3301413 (if already on State inventory).

I also understand that any water system serving water to 15 or more services or 25 or more people is classified as a public water system subject to the operating and construction rules and regulations of the West Virginia Bureau for Public Health.

As the owner of Golden Acres Mobile Home Park I do not desire  
(water system)  
regulation coverage. Consequently, I make declaration that I presently do not nor intend to serve water to 15 or more services or 25 or more people.

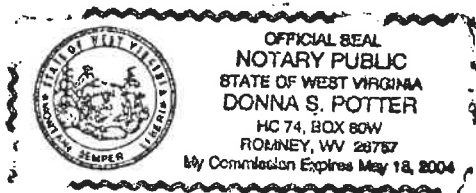

Should circumstances change to where I plan to serve water to 15 or more connections or 25 or more people, I am duly bound to notify in writing the West Virginia Bureau for Public Health, Division of Environmental Engineering, 815 Quarrier Street, Suite 418, Charleston, WV 25301.

I further agree to notify in writing the West Virginia Bureau for Public Health should I transfer ownership of this central water system.
